WEBSITE STATISTICS AT YOUR FINGERTIPS

PROFESSIONAL REPORTING

Our statistic package comes standard with a full suite of rich and interactive reports that deliver live, up-to-the-second website statistics.

- Key traffic reports reveal how many visits, page views and hits a website receives, and how long visitors stay.
- Page analysis reports help you optimize your site navigation.
- Referral reports show inbound and outbound referring websites.
- A full suite of search engine reports show the search engines and keywords that visitors use to find your website.
- Executive summaries keep managers up to date.
- Geographic reports with interactive maps breakdown traffic by specific country and continent.
- Content grouping allows you to group similar web pages together for easy and organized report viewing.

With statistic tracking, you will better understand how visitors find and use your website.

REPORT EXPORTING AND EMAILING

Our statistic reports can be easily printed, e-mailed and exported to help you share your website statistics with others.

- Print reports directly from the web browser, complete with tables, graphs and maps.
- Email reports in rich HTML or print ready, archive quality PDF formats.
- Export reports in CSV, XML and PDF formats.
- Auto email executive summaries.

Our statistic reports will help you share your data and integrate it with your in-house spreadsheet and database applications.

ALL THIS FOR ONLY \$5 PER MONTH!
